

COMPANY PROFILE

Studio HR Soundroom

End-to-end **audio production.**

A remote audio production company that helps businesses and production houses handle high-volume audio production — without building another internal team. White-label, overflow, and dedicated capacity, delivered globally.

A remote production partner.

Studio HR Soundroom is a remote audio production partner for storytelling platforms, publishers, podcast networks, localization companies, and AI audio/voice companies. We plug into your pipeline as a white-label, overflow, or dedicated production team — handling editing, sound design, mixing, mastering, quality control, and final delivery at high volume, delivered globally.

Core services

- **Audio Story Production**
Immersive audio dramas from script to final master.
- **Audiobook Production**
Narration, editing, and chapter delivery at publisher scale.
- **AI Audio / Voice QA**
Human quality control for AI-generated voice and audio.
- **Localization & Dubbing Post**
Dubbing post-production and localized, market-ready delivery.
- **Podcast Production**
End-to-end episode production and post for networks and brands.
- **Mixing, Mastering & QC**
Studio-grade mix, master, and a dedicated quality-control pass.

Built for high-volume, recurring production

Available for white-label, overflow, and dedicated production capacity — set up for recurring monthly production and able to scale with your slate.

Extra capacity, no new hires.

Need additional audio production capacity without hiring another team? Studio HR works as a remote, white-label production partner. Send us your scripts, recordings, or production load, and we handle editing, sound design, mixing, quality control, and final delivery.

A PRODUCTION PARTNER FOR

Production houses

Publishers

Audio platforms

Localization companies

Podcast networks

AI audio / voice companies

HOW WE WORK

05

Simple, spec-driven

01 Send us your production load

Scripts, recordings, or an entire backlog — hand it over as-is.

02 We follow your workflow & specs

Your naming, formats, and delivery standards, matched exactly.

03 Production + QC

Editing, sound design, mixing, and a dedicated quality-control pass.

04 Delivery-ready masters

Spec-perfect final files, delivered on your schedule.

Set up for recurring monthly production and overflow capacity — scale up or down as your slate changes.

Human QC for AI-generated audio.

AI can generate voice at scale — but shipping it still needs a trained human ear. We evaluate AI-generated audio against a rigorous, production-grade checklist and return clear pass / revise notes.

WHAT WE EVALUATE

- **Naturalness**
Sounds human, not synthetic.
- **Pronunciation**
Accurate words, names, terms.
- **Emotion**
Believable emotional delivery.
- **Pacing**
Natural rhythm and speed.
- **Prosody**
Correct stress and intonation.
- **Character consistency**
Stable voice across scenes.
- **Dialogue realism**
Convincing timing and interaction.
- **Audio artifacts**
Glitches and errors flagged.
- **Overall quality**
A final, holistic verdict.

Ship AI audio with confidence

Positioned as a specialized service for AI audio / voice companies, audio platforms, publishers, and localization companies — the human last mile of quality before you ship.

Selected work

Studio HR demo / spec productions — originals in high-quality binaural and spatial audio, built for a cinematic, headphone-first experience.

	Don't Look Behind You	Suspense / Psychological Thriller
	System Awakening	Sci-Fi LitRPG / System Apocalypse
	The Last King of Dragons	Fantasy Epic
	The Missed Call	Drama
	When the Stars Chose Her	Romantasy

Discuss your production needs.
